

P3 GLOBAL ENERGY
A Member of Mining and Utility Group of Companies

MR. POAWPADET (PAUL) VORABUTR
PRESIDENT AND CHIEF EXECUTIVE OFFICER

Mr. Poawpadet (Paul) Vorabutr graduated with Bachelor and Master Degrees in Petroleum Engineering from the University of Southern California (USC), U.S.A., in 1977 and 1978, respectively. After graduation, he worked in the Dallas Headoffice of Texas Pacific Oil Company - an independent oil company - in various engineering and operation capacities for ten years. He was instrumental in the discovery and delineation of Thailand's largest offshore gas field by Texas Pacific during this period.

Mr. Poawpadet then joined PTT Exploration and Production Public Company Limited (PTTEP), Thailand's national oil company, in 1989 as Drilling and Production Manager. Subsequently, he was promoted to Vice President responsible for operations of Thailand's largest gas field in partnership with Total of France and British Gas of the United Kingdom. In addition, he succeeded in spear-heading development of three other major offshore gas fields, namely: Arthit and Bongkot gas fields located in the Gulf of Thailand in partnership with Chevron and Moeco, and Total and BG, respectively; and, JDA Block B-17 gas field located in the Malaysia-Thailand Joint Development Area in partnership with Petronas Carigali of Malaysia. The combined initial investment for these development projects exceeded 5 Billion USD. These facilities will collectively deliver more than 1,800 MMSCFD of gas to Thailand in 2011.

Mr. Poawpadet took up the post as Vice President Joint Venture and Thai Onshore Assets within PTTEP in 2007 responsible for the management of several oil and gas production joint ventures in Thailand with Chevron, Hess, ExxonMobil, Moeco, among others. In addition, he was also directly responsible for the operations of the largest onshore oilfield in Thailand. This has given him wide breadth of business perspective and provided him opportunity to forge new and long-lasting professional and personal relationships with executives of these companies.

Mr. Poawpadet is known for his drive for best-in-class performance. He is also an 'early adopter' and 'early mover' of new technologies, processes, and ideas that show promises of delivering better performance. Additionally, he has also been accorded professional recognitions through various invitations from professional organizations to give keynote speeches and talks at regional and international conferences.

Mr. Poawpadet joined P3 Global Energy as partner and President and Chief Executive Officer in August 2008.

Mr. Poawpadet is a Thai national born on 24 August 1954. He is in excellent health and enjoys reading, traveling, and golfing occasionally.
